

Analyzing a Song!

Choose a song (this does not have to be a Hip Hop/Rap one) and write a brief analysis or description. Use the internet to find the lyrics (many sites might be blocked). Answer the following questions:

- What are the messages?
- How are women used in the message?
- What techniques are used to convey the messages? (word choice, dress, lighting...)
- Who is the target audience and how do you know?

Compare:

Find two other songs to compare like we did with the Nelly and Queen Latifa songs.

- What are the similarities and differences between the two songs you picked?
- Why should these be used instead of the 2 used currently.
